Introduction to AI 4DGM - Part

What is AI-4D?

1. Introduction to AI-4D

AI4D (also known as AI-4D or AI-4DGM) is an AI add-on module to its parent 4D GrandMaster (4DGM) Professional software. AI4D does not operate by itself as it has to be connected and be dependent upon its parent 4DGM software for its vast database, 4D analytics and resources. To be able to take advantage of AI4D, a person must be an existing 4D GrandMaster Professional subscriber or intend to subscribe to this software first.

18th of May 2024, marked another major milestone in the development of our 4D Analysis & Forecast software. We are the first, in Singapore, perhaps in South East Asia to include AI (Artificial Intelligence) into our existing 4D Analysis software.

AI4D is a cutting-edge 4D lottery module designed to change the way people play and win lotteries. By harnessing the power of artificial intelligence, AI4D offers users a smarter, more efficient approach to predicting 4D lottery numbers. Unlike traditional methods, AI4D analyzes vast amounts of data in real-time, providing insights and predictions that help improve your chances of winning.

2. Key Features

AI4D comes packed with an array of impressive features. It has a sophisticated predictive algorithm that leverages advanced AI to analyze patterns and trends. The real-time number analysis ensures users have the latest and most probable predictions. The user-friendly interface with pre-defined and or user-defined queries allow for easy customization, enabling users to tailor the data-query to their specific needs and preferences.

3. How AI4D Works

The magic behind AI4D lies in its advanced AI technologies. This module collects and processes data from various sources, such as past lottery results and statistics. By identifying patterns, trends and anomalies, AI4D can predict potential winning numbers with better accuracy. Users simply input their queries and the software does the rest, offering a quick, seamless and intuitive experience.

4. Benefits of Using AI4D

Using AI4D offers numerous advantages over traditional lottery analysis methods. The software reduces guesswork and manual effort, giving users a higher chance of winning. Detailed statistical insights help users make informed decisions, while the real-time analysis ensures they are always up-to-date with the latest patterns and trends. Overall, AI4D enhances the lottery experience, making it more enjoyable and rewarding.

5. Success Stories and Testimonials

AI4D has already made a significant impact on the experiences of many users. These success stories and testimonials highlight the effectiveness of 4D Grandmaster and AI-4D and its potential to improve your winning chances.

Tools & Functions

AI4D offers a range of tools and functions related to 4D analysis, including:

1. ****System Number Analysis****: Retrieve and analyze system numbers based on various patterns and statuses.
2. ****Frequency Analysis****: Get the most frequent numbers, hit counts, statistics etc over specified draws.
3. ****Forecasting****: Generate personal forecast numbers and analyze historical data to learn the best systems.
4. ****E-Winning Box****: Provide daily and monthly e-Winning Box numbers based on patterns, ratings, statuses, frequencies, etc.
5. ****Direct Numbers****: Get direct numbers based on intervals, hits, and specific system numbers.
6. ****Statistical Analysis****: Offer various statistics related to ratings, statuses, intervals, etc over different time frames.

And much, much more...

6. AI4D is the ultimate companion

In summary, AI4D is a game-changer in the world of lotteries. With its advanced AI technology, the software offers a smarter, more efficient way to play and win. Users can enjoy improved chances of winning, reduced effort, and detailed insights. For those looking to enhance their lottery experience, AI4D is the ultimate companion.

7. 4D Grandmaster Professional software

The parent software, ie 4D GrandMaster, a well-established and comprehensive software. It is designed to help users analyze and predict 4D lottery numbers. It utilizes expert algorithms, historical data, patterns and trends to identify potential winning numbers. The software provides features such as Weekly and Monthly forecasts, statistical analysis and prediction tools to assist users in making informed decisions when playing the 4D lottery. It aims to increase the chances of winning by providing insights into the probabilities, patterns and trends of certain numbers in the game.

8. AI4D Subscription

Who can subscribe to AI4D module?

AI4D module is an optional add-on module open to existing 4DGM subscribers and persons who intend to subscribe to 4DGM Professional software. You can sign up for the AI4D module for an initial period of 6 months for only \$60.

If you are not yet an existing subscriber to 4DGM professional software, you may sign up at the current offer price at \$198 (after 30% discount, usual price is \$288).

Interested persons may PAYNOW to 93874088 or Internet bank transfer to POSB Savings, 171-392055.

For AI4D subscribers, upon completion of the initial 6 months period, we will review the subscription rates for those who wish to continue to access to AI4D.

9. How Can AI4D Help?

Applying AI in 4D lottery analysis and forecasting involves algorithms to analyze historical data, identify patterns and make predictions.

However, do remember that lottery outcomes are randomly drawn. While AI 4D can help increase the probability of predicting winning numbers, there is no guarantee of success.

But one thing for sure, AI4D will assist you to analyse and forecast 4D numbers faster and much more efficiently. You may query using your own user-defined query or pre-defined query provided in the program. This is a definite advantage and boost your winning chances than just using 4DGM software alone.

10. Frequently Ask Questions

Q1. Can I sign up for AI4D module if I am not an existing 4DGM software subscriber?

Ans1: No. The AI4D is an add-on module which has to be connected and linked to 4DGM Professional software to access its vast database, 4D analytics and resources. Hence, without 4DGM software, you are NOT able to use AI4D module.

Q2. Do I have to subscribe to 4DGM software first before I can subscriber to AI4D module?

Ans2. Absolutely Yes.

Q3. What if my existing 4DGM software subscription is less than 6 mths?

Ans3. Then you need to extend your existing subscription of 4DGM software by 6 mths or extend by the number of months to match your 6 mths subscription AI4D module.

11. Future Plans and Updates

The team behind AI4D is continuously working to improve the software and expand its capabilities. Upcoming features include enhanced predictive algorithms, additional pre-defined options, and broader data integration. AI4D aims to stay ahead of the competition by consistently innovating and adapting to the evolving needs of its users.

By: Master Charles Chia

In the next issue, we will illustrate how you can make use AI4D's pre-defined and user-defined queries to predict 4D numbers.

Look out for the next issue. Don't miss it!
